The farmers of the North Coast Growers' Association invite the community to our certified farmers' markets to celebrate the bounty of fresh and local "Humboldt County Grown" produce!

Harvest Box, our multi-farm CSA, brings the farmers' market to you. Visit our website for more information and a complete list of delivery and pick-up options.

We are proud to bring you sustainably grown and GMO free food direct from our family farms.

We thank the community for supporting our labor of love and for your commitment to the health and wellness of the environment and community by eating seasonally and buying direct from the source.

CalFresh EBT and WIC are welcome, and we offer the Market Match program to help make fresh food affordable.
